

CEEC 2018

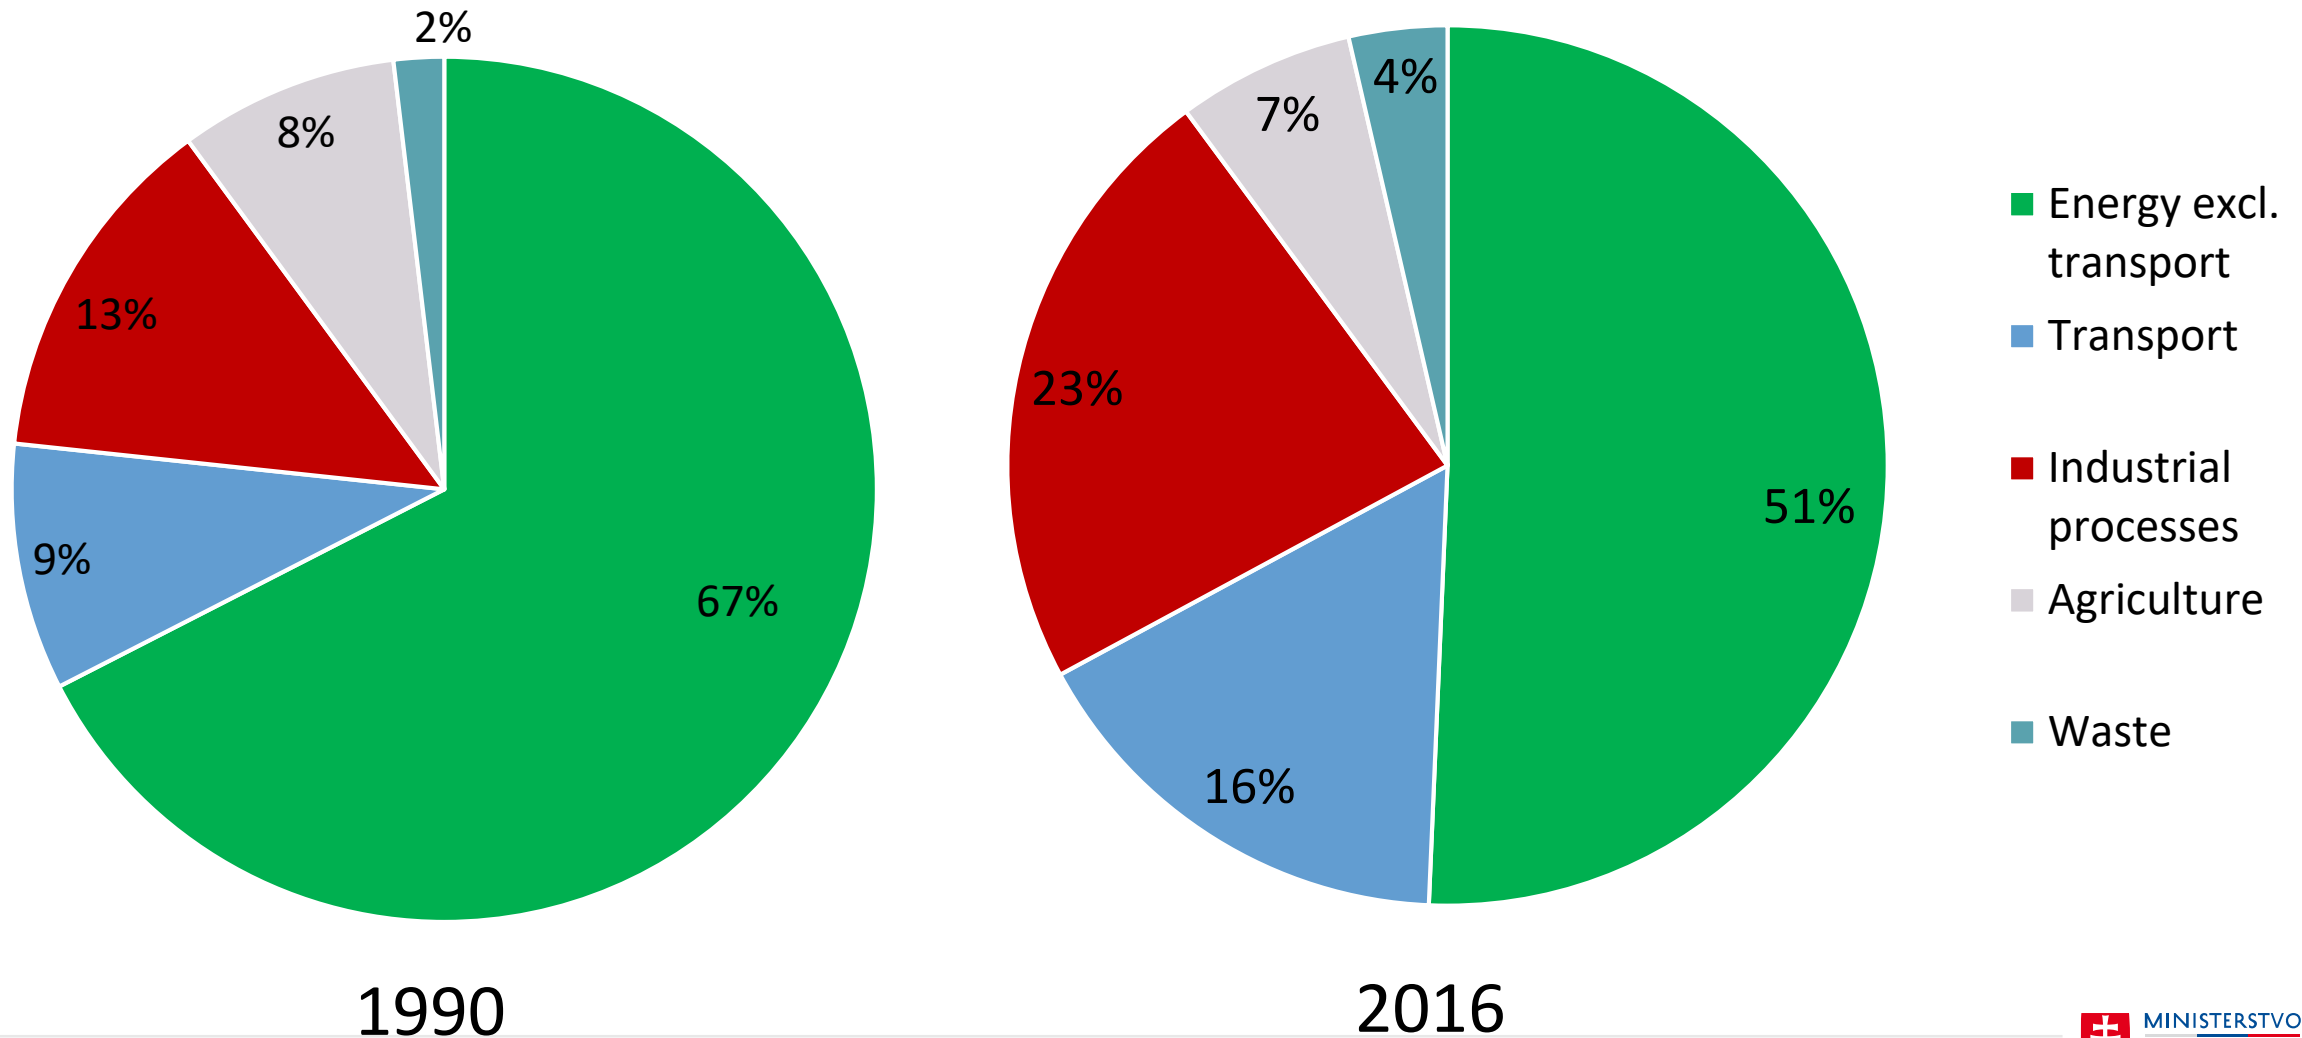

Panel VI: Climate goals, decarbonisation and energy security

Norbert Kurilla, State Secretary

Changes in GHG emissions in selected EU countries

GHG emissions in Slovakia by sector

Key climate policies by 2030

EU LEVEL

- **Climate and Energy Framework 2030**

Total EU GHG emissions:

- 40 % (comp. 1990)

- **National targets:**

ETS emissions:

-43 % (comp. 2005)

Non-ETS emissions:

-12 % (comp. 2005)

NATIONAL LEVEL

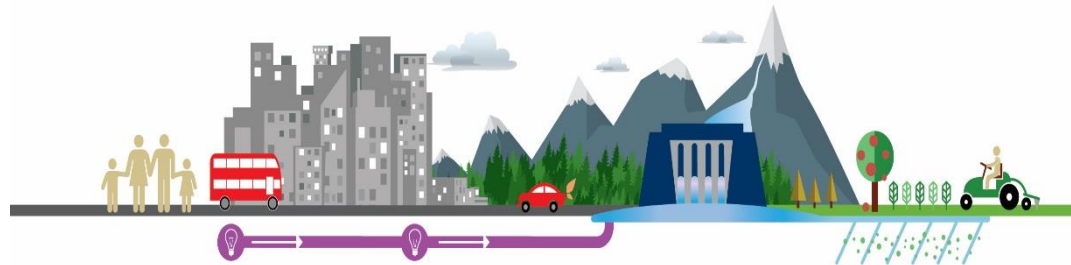

- ***Environmental Strategy 2030***
- ***Long-term Low Carbon Strategy 2030/2050***
- ***Adaptation Strategy***

Environmental Strategy 2030

- To be adopted by the end of 2018
- Modern vision for better environment and sustainable circular economy
- Priorities: waste, air quality and protection of forest ecosystems
- Climate change:
 - Increase of non-ETS target to -20 % (comp. 2005)
 - Switch from fossil fuels to alternative fuels in transport
 - End of environmentally harmful subsidies
 - Green infrastructure
 - Local adaptation strategies

Long-term Low Carbon Strategy 2030/2050

- To be adopted by the end of 2019
- Cooperation with the World Bank:
 - A low carbon study
 - Macro and energy models with technical documentation
 - Capacity Building
- A low carbon strategy will:
 - provide long term vision of a Slovak low carbon future,
 - align Slovak policies with the Paris Agreement,
 - set new Slovak goals and policies to achieve them and ensure financing.

Adaptation Strategy

- Adopted in March 2014
- Update of Adaptation Strategy adopted in October 2018
- The main objective:
 - provide information on adverse impacts of climate change in different areas and sectors,
 - provide a general guidance on adaptation and propose suitable adaptation measures and actions, a coordination framework for their implementation,
 - increase awareness about climate change.
- Number of areas: geology, soil, water management, biodiversity protection, built environment, public health, agriculture, forestry, transport, tourism, industry and energy.
- Preparation of the national adaptation action plan (NAP) started in April 2018
- National project "Improvement of information and advice on improving the quality of the environment in Slovakia,"
 - Activity on climate adaptation and risk management

MINISTRY
OF ENVIRONMENT
OF THE SLOVAK REPUBLIC
